

## **Vice President Kamala Harris: A Leader on Border Security, Transnational Criminal Organizations, Regional Migration and Immigration Reform**

Trump and Republicans are trying to distract from their efforts to take away women's reproductive rights, dismantle Medicare and the Affordable Care Act and erode the accomplishments of the Biden-Harris administration by attacking the Vice President's robust record on immigration and security. Since her tenure as a Senator and Attorney General of California, and now as the Vice President, VP Kamala Harris has been one of the nation's foremost leaders on immigration reform, efforts to [combat transnational crime](#), and [strengthen border security](#). In stark contrast to Republican Vice President nominee J.D. Vance who has echoed Trump's nativist record, endorsing [Project 2025](#), [mass deportation and detention](#) of Dreamers and long-settled immigrants, and blocked bipartisan efforts to fix our immigration system in his short time in the Senate, VP Harris has been a steadfast supporter of immigration reform since her time in the Senate, [championing citizenship for dreamers and the longtime undocumented](#), efforts to [keep families together](#), and smart border security measures. She can be counted on to do even more to strengthen our security and deliver for immigrant communities in her second term.

These investments helped to create over 250,000 jobs in the region, provided funding for small businesses, and supported the [economic inclusion of women](#).
- Provided significant economic and humanitarian assistance to El Salvador, Honduras, and Guatemala, to address immediate humanitarian needs of people in the region. In April

2021, Harris [announced](#) \$310 million in U.S. Government support to address acute factors contributing to migration in the region.

- Successfully [appealed](#) to the United Nations to launch the 2021 - 2022 Humanitarian Response Plans for El Salvador, Guatemala, and Honduras - through which the United States has provided almost \$169 million towards humanitarian efforts in the Northern Triangle region.
- Launched “[In Her Hands](#),” an initiative focused on women’s economic empowerment, in collaboration with the Partnership for Central America. By 2030, the initiative aims to provide 5 million women in Guatemala with job support, financial literacy, and technical training.
